PROFESSIONAL SUMMARY

Proven decade of experience in product engineering, software development and QA testing. Skilled in building test frameworks, automating cloud infrastructure creation and integrating CI/CD pipelines.

WORK EXPERIENCE

Senior Software QA Engineer

SUSE | Remote | Nov, 2022 - Present

- Lead architect of Github repository rancher/tfp-automation, a QA automated test framework that utilizes Golang and Terraform to create Rancher test environments and conduct automated testing.
- Primary QA lead for Github repository rancher/tests, a QA automated test framework in which contributions include cluster provisioning validation through airgap, proxy, IPv4, dual-stack and IPv6 Rancher environments.
- Lead validation of complex Rancher issues, performing thorough testing and root cause analysis to facilitate efficient bug triage and quality improvements.
- Maintain QA documentation for automation, issue validation and test setup.

Software QA Engineer

SUSE | Remote | Apr, 2022 - Nov, 2022

- Executed testing for Rancher to validate issues and log defects.
- Created and maintained automated test cases within various Rancher QA test frameworks.
- Authored internal Confluence documentation, expanding technical knowledge and collaboration.

Linux Product Engineer

ESRI | Redlands, CA | Jan, 2018 - Apr, 2022

- Validated and certified supported Linux distributions for ArcGIS Enterprise.
- Lead engineer for the deployment of ArcGIS Enterprise on Kubernetes, driving scalable, reliable installation and configuration processes.
- Implemented Jenkins-based regression testing framework for ArcGIS Enterprise, improving release quality and early defect detection.
- Authored the “Monthly Linux Tip” blog series for ArcGIS Enterprise.

Support Engineer

ESRI | Redlands, CA | Jan, 2018 - Nov, 2019

- Presented troubleshooting presentations for customers at ESRI UC 2019.
- Resolved ~800 cases with high-quality customer satisfaction.

EDUCATION

M.S. Computer Science

University of Colorado Boulder | Nov, 2025 - Present

B.S. Computer Science & Engineering

University of California, Merced | Merced, CA | Aug, 2012 - May, 2016
